U.F.O. HOTLINE: (516) 286-3212

ESTABLISHED, APRIL, 1988

L.I.U.F.O.N. NEWS.

\*\*\*\*\* The month of December has been relatively quiet in comparison to previous months, but there was still activity for L.I.U.F.O.N. \*\*\*\*\* Once again L.I.U.F.O.N. made the air waves. Barry and Debbie Gellis aired the one hour special on the Moriches Bay Case on December 2nd over Brooklyn-Queens Public Access T.V. That night the hotline was busy answering questions from interested viewers concerning L.I.U.F.O.N.'s investigation into the U.F.O. Crash Retrieval over Moriches Bay. Many callers were from the Queens area, but some called from Brooklyn. The Hotline even got calls from Manhattan concerning the case (some viewers watched the show from either family or friend's homes in Queens and called us when they got back to their residences in Manhattan). \*\*\*\*\* The reaction was one of shock that this incident occurred here in the Metropolitan Area. Most wondered why the national news media hadn't picked up the story.\*\*\*\*\* simple answer \*\*\*\*\* The U.S. Government covers up U.F.O. incidents in a veil of secrecy wrapped in a enigma \*\*\*\*\* Correction please. L.I.U.F.O.N. is speaking at the Nesconset Public Library on March 9th, 1991 between 10:00 a.m. and 1:30 p.m., not March 20th as reported earlier ( we can make mistakes) \*\*\*\*\* Since November, we have picked up some fourteen new members for the organization. Some have been from Pennsylvania, California, Florida and most from the Metroploitan area. One membership has been from Upstate New York. Most have responded to the publicity from the Vanderbilt Planetarium talks and the interviews done on U.F.O.'s Today with Barry and Debbie Gellis. Others have heard of us and sought us out to join as memebtrs since they have had a lifetime interest in the subject and have always wanted to join an organization such as ours.\*\*\*\*\* In short L.I.U.F.O.N. is growing. The Vanderbilt Planetarium Show is still going strong. This is the one that L.I.U.F.O.N., Dick Ruhl and the Planetarium Director Dave Levine helped to put together. The public's reaction has been very favorable. It has also been a good source of new members and favorable publicity for the organization. \*\*\*\* The Joel Martin Show plans to have us on again this coming year and one of the options we plan to do will be a special report on the Moriches Bay Case. \*\*\*\*\* This time it will be for Suffolk County Audiences.\*\*\*\*\* The schedule for the 1991 membership meetings will be announced in the January issue of the Newsletter.\*\*\*\*\* Watch for it.\*\*\*\*\* By the way, we will be announcing in advance the programs for future membership meetings several months before the meetings. \*\*\*\*\* This is being done to help members keep abreast of future membership meetings in case they should receive the newsletter late. \*\*\*\*\* On Fevuary 24th, 1991 at the Riverhead Library, L.I.U.F.O.N. is putting on another presentation. It will be from 1:30 p.m. to 4:30 p.m. that Saturday. \*\*\*\*\* Members, please send us your letters, articles and any newspaper stories or clippings pertaining to U.F.O.'s. If it is just your opinion on the current U.F.O. sightings we have reported, we will publish it and give you credit for the information. Members remember, this is your newsletter too. \*\*\*\*\* Remember, U.F.O.'s are real !!!! 30.

\*\*\*\*\*  
SPECIAL MESSAGE TO ALL FROM THE FOLKS AT L.I.U.F.O.N. !!!!

MAY YOU AND YOUR FAMILY HAVE A

MERRY CHRISTMAS

AND A

HAPPY NEW YEAR !!!

\*\*\*\*\*

**MEMBERSHIP MEETING:** The next membership meeting of the Long Island U.F.O. Network Inc will be at the South Country Library in Bellport Village on December 21, 1990 at 6:30 P.M.. The presentation for the night will be a video documentary on the famopus Tungusta, Siberia Explosion of 1908 in which an area the size of both London and New York Cities was levelled in the Siberian Wilderness. Was it a Comet, Anti-Matter or an Alien Spaceship that crashed. See the evdince for yourself.

Members, their guests and the general public are invited. The meeting starts promptly at 6:30 P.M.. Remember there is no smoking in the Library Community Room.

\*\*\*\*\*  
**DOES INCREASE:** Remember members, if you are renewing your membership in January, you will be subject to the new membership rate of \$25.00 per year. The new rate takes effect on January 1st, 1991. If you desire to renew now before the increase please call the Hotline and ask for a renewal form and it will be honored at the current rate of \$20.00. This offer ends on December 31st, 1990.

\*\*\*\*\*  
**1991 Membership Meeting Schedule:** The schedule for next year's membership meetings will be published in the January issue of the newsletter. Please watch for it.

\*\*\*\*\*  
**INVESTIGATORS:** The Long Island U.F.O. Network needs more investigators for the purpose of investigating U.F.O. sightings. If you are a member and wish to get active investigating cases, please call the Hotline for a application.

\*\*\*\*\*  
**PINE BUSH TRIP:** L.I.U.F.O.N. is planning to undertake another trip up to Pine Bush in the Middletown area around Washington's Birthday in February. Please call the Hotline if you are interested in going.

\*\*\*\*\*  
**SPECIAL ANNOUNCEMENT**

Dear members. As we enter the months of December and January, we are also entering one of the highest periods for U.F.O. activity. By statistical analysis it has been proven that this is a peak period for sightings.

In anticipation of future sightings and the possibility that our members may be involved or their families or loved ones we are issuing this warning.

If you or someone you know have a U.F.O. sighting or experience that may be U.F.O. related, do not call the Suffolk County Police.. In light of the Hunter Ave. report and the Columbia Street, Port Jefferson Case of 1988, we take time to remind you that the Suffolk County Police have a secret Operations Manual which is issued to the higher echelons of the Dept. which instructs them as to which Federal Intelligence Agencies to contact in the event of a U.F.O. Incident.

This has resulted here in Suffolk County in three instances where we know that U.F.O. sightings have been covered up with the witnesses being intimidated by the Federal Government.. The instances involved the witnesses calling the Police who apparently contacted the Feds.

Do not call the Police, call L.I.U.F.O.N. instead. If the incident arises where someone has called the Police and are later contacted by the Feds, please request to have a L.I.U.F.O.N. Investigator present during any questioning or if necessary our attorney.

Do not hesitate to call us if there is an emergency. L.I.U.F.O.N. is at your service.

\*\*\*\*\*  
**FUTURE MEMBERSHIP MEETINGS:** As we enter the new year and are in the stages of planning our agenda for the membership meetings, LIUFON plans to have some very interesting events planned for the future. At some future meetings we hope to have guest speakers and slide presentations. We also plan to air the Billy Meir Tapes at a later date. Please attend.

THE U.F.O. CONTACTEE VS. THE ABDUCTEE.  
BY JOHN FORD

There has been since the beginning of the U.F.O. Phenomenon those people who claim to have been contacted by Alien Beings and taken aboard alien space ships. Beginning in the fifties the wave of such reports resulted in the famous George Adamsky who reportedly had many visitations from Venus of beings who whisked him away to their planet and other various places around the solar system. There is an equally famous case from the seventies from Switzerland. "The Billy Meir Case", which is the story of a handicapped farmer who reportedly had communications with beings from the Pleiades Star System. In this case Mr. Meir produced photographs (literally hundreds of them), movie films, an unusual metal sample from one of the ships, sound recordings of the ships' noises and landing circles. The case usually has been denounced as a fraud, but it really depends on who you believe. The evidence for pro and con is equally heavy. Although both are not abductees, their cases would fall into the category of "Contactees". People who are contacted or claim so, by extra-terrestrials to carry forth a message or a particular program. Most of the time they have been proven to be hoaxes over the years, but there have been cases where there are really no valid explanations for the events that have been reported.

The abductee is one who has been forcibly taken against his will for some sort of "medical or biological examination. Usually the person or persons are taken after being immobilized (which may not be the case in all reports) by their captors and suffer a period of missing time amongst other phenomenon. Some 25% of the abductees usually have no conscious recollection of the event, while the remaining 75% have either full or partial recollection. The most famous of these cases is of course the Betty and Barney Hill Case of 1961 in New Hampshire. Years later, after extensive regression, they were able to recall their period of missing time and subsequent abduction/medical examination by aliens. Besides their recollections there was also physical and related evidence to support their story.

While the majority of Contactees may be frauds, the majority of abductees may not be. Most people claiming abduction usually related similar circumstances, physical evidence, histories of abnormal phenomenon and similar descriptions of the beings. Most of these people usually relate being abducted while reporting a U.F.O. sighting. Others relate being abducted in a series of totally abnormal circumstances which if true would indicate contact with beings who possess a technology beyond our comprehension.

Usually what most abductees have in common are similar experiences which may be dis-similar in some respects but have a common trait amongst them. They usually are:

- 1) A early childhood recollection of contact with spiritual or angelic entities associated with a period of missing time. This is usually an implanted cover memory for a real abduction scenario.
- 2) Visitations by beings in their bedrooms as a child.
- 3) An occurrence involving a missing time episode where a resulting cut on their body is discovered which is deep and does not bleed. This occurs at an extremely young age before puberty.
- 4) Later abductions and visitations during their adolescence and adulthood.
- 5) Upon investigation it usually surfaces that the situation will involve not only them but other members of their families and or friends. Sometimes it will involve several generations of a particular family.
- 6) All abductees report similar medical procedures performed on them.
- 7) Abductees will describe in most cases similar beings involved in their abductions.
- 8) The purpose of the abduction appears to be a interest in humans as a species and our reproductive capabilities.

There are also several categories of abductees who seem to have similar experiences, but for different purposes. They are:

- 1) The life long abductee who is monitored for his biological development.
- 2) The random abductee who is usually taken as part of a general random abduction/biological monitoring program. This might involve only once or twice in a lifetime experience.
- 3) Those abductees, both male and female who are usually used as sources of genetic material for cross-breeding purposes. Sometimes women are impregnated to carry cross-breeds with unexplained miscarriages resulting.
- 4) Most abductees are implanted with a 3 cm spherical device usually in their brains via their sinus areas. These devices appear to be monitoring and control devices.
- 5) Some abductees report being given a message that something big will occur in the next several years. Even under deep regression the secret has yet to be learned from these abductees.
- 6) Those abductees who are taken and are never returned and whose fate is a mystery.

The major impetus for the elevation of the abductee to the center stage of Ufology belongs to the meticulous research done by Bud Hopkins His book "Missing Time", published in 1979 elevated the abductee from crackpot status to that of respectability. ~~Waltley~~ Stricker's book "Communion" made the subject popular and brought serious attention to the research.

What should be mentioned here at this junction, is the amount of physical, medical and scientific evidence that substantiates the abduction experiences of many abductees. The research of Hopkins and others indicate something totally strange is happening to these people.

While the case for the Contactee may be weak and the majority claiming such experiences are frauds with the minority being somewhat credible, the case for most abductees may be strong. It may be that these last two decades have seen a turning point in Ufology, one that would prove to be the most solid case for the phenomenon and its ultimate answer.

\*\*\*\*\*

#### SPECIAL REPORT NUMBER 1

CASE NUMBER: 0133-90

FROM THE ARCHIVES OF THE LONG ISLAND

TYPE: CE-1

U.F.O. NETWORK INC.

WITNESS: MR. MARK LANDERS, LIUFON, KINGS COUNTY CHAIRMAN

DATE: 12/10/90

On Monday, 12/10/90 at 8:17 A.M. EST in Brooklyn, NY, while riding on the "Q" train departing the elevated Brighton Beach Station on the Manhattan bound track on the N.Y. City subway system Mr. Landers observed an unidentified object from the side window of the train. Said object was in approximately northerly direction at about a 30 degree angle above the horizon. It subtended the same angle as the width of his forefinger held at arms length. It was completely black with what appeared to be twinkling red and green lights. The right side of the object appeared to be slightly lower than the left. the shape of the object was very similar(though not identical) to the description given of the so-called "Stealth" aircraft.

Mr. Landers was only to observe the object for about five seconds after which the train turned and the object was out of view. About one minute later an olive drab colored helicopter with no visible markings came from the West and appeared to head in the general direction of the object.

The weather was bright and sunny with no low cloud cover or fog. the object was not a reflection in the train window as it appeared to stay in one spot in the sky as the train turned. The object was not a bird as a seagull observed at the same time was clearly white and without any appearance of twinkling lights. No further observation of the object was made.

"SAWTOOTH SHAPE"

FINS ———

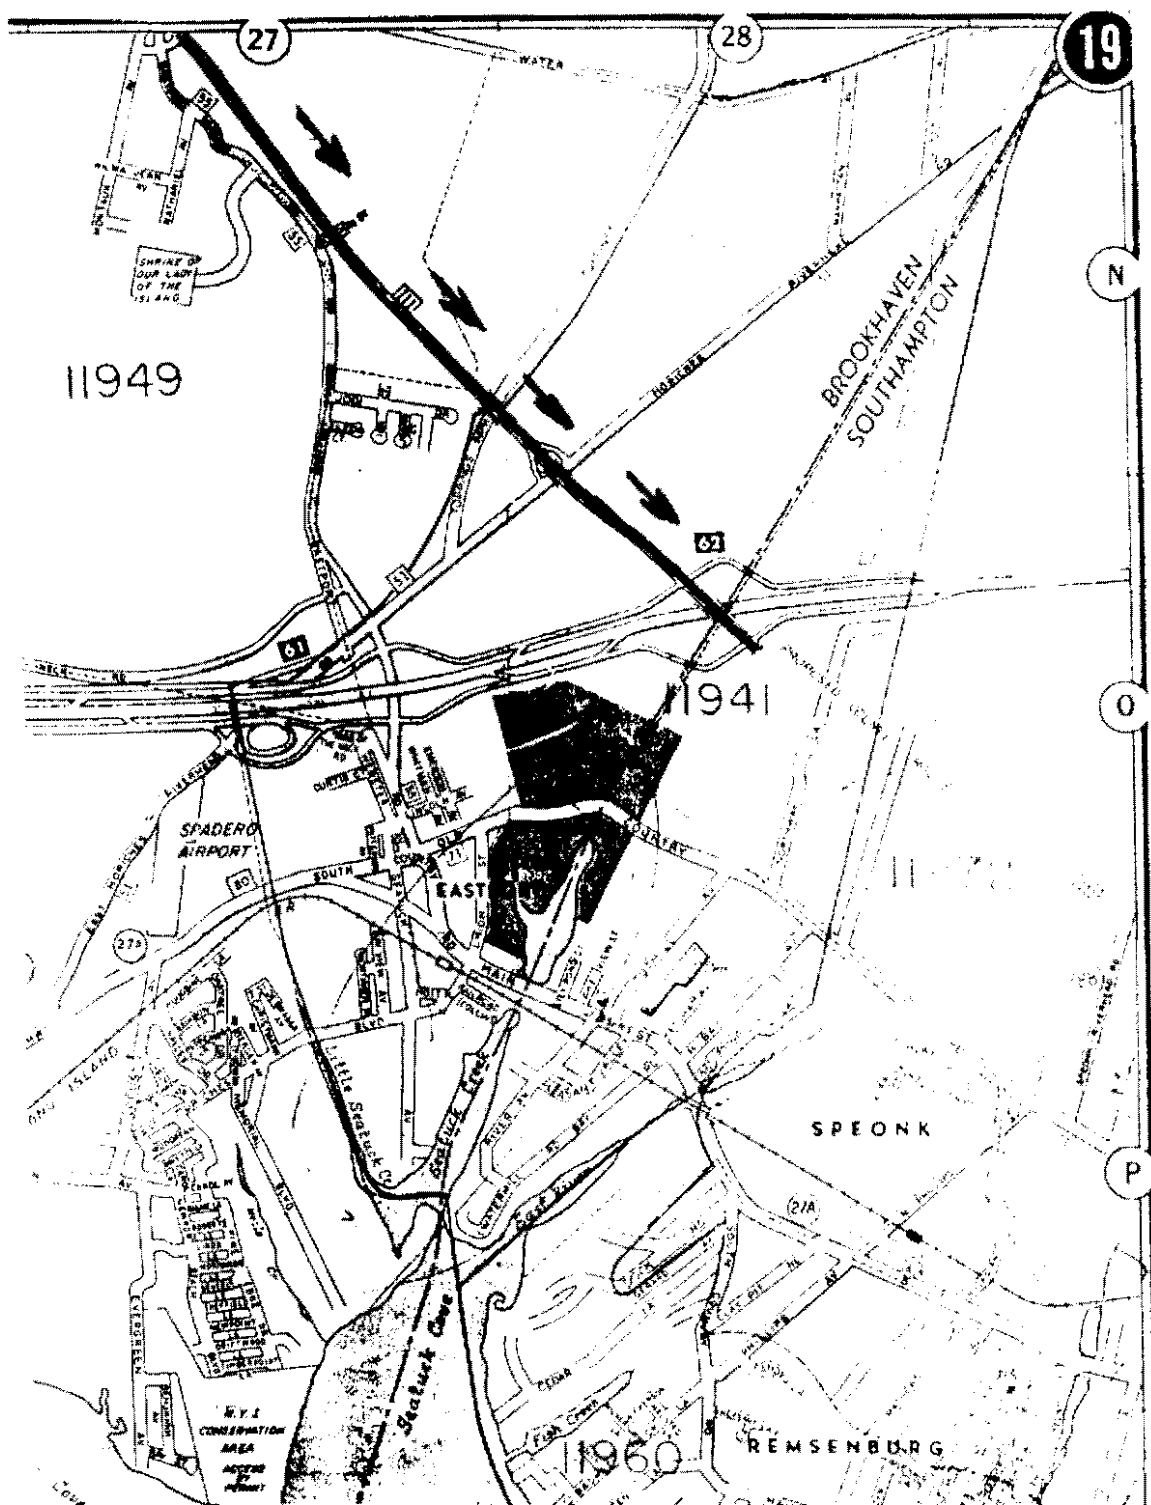

——— SURFACE WAS "JET" BLACK

——— FINS ON EITHER END

RENDITION OF THE OBJECT SEEN BY LANDERS.

L.I.U.F.O.N. has given Mr. Landers report a high degree of credibility. The object is listed, tentatively as a unknown.

**MAP OF AREA OF THE OCCURRENCE:** The heavy black line indicates County Road Route 111 which travels through Manorville, Long Island South Easterly into the Eastport and Speonk Areas. The arrows indicate Maria M.'s direction the night her car was pursued by the luminous oval object which escorted the frightened young woman down to the interchange in Eastport with the Sunrise Highway. From here, she would travel to the Hampton area to her apartment's safety.

The object followed and escorted her car at treetop level for several miles. L.I.U.F.O.N.'s estimate of the size would be placed at a minimum of at 160 feet across for the object.

\*\*\*\*\*

SPECIAL REPORT #2

CASE NUMBER: 0007-90

DATE: FEBRUARY 4TH, 1990

LOCATION: ROUTE 111, MANORVILLE, L.I., N.Y.

WITNESS: MARIA M. (IDENTITY WITH HELD AT HER REQUEST)

CLASSIFICATION: CE-I

TYPE OF OBJECT: LUMINOUS OVAL

SIZE: ESTIMATED AT 160 FEET.

On the night of February 4th, 1990, one Maria M. (her identity is confidential) would have a very real and terrifying encounter with the U.F.O. phenomenon. Maria, a Brazilian citizen, is a young, pretty, intelligent and educated 26 year old woman. A graduate of both college and graduate school in Brazil she earned her Master's Degree in physio-therapy.

Maria was living in the United States as a legal resident alien working as a cook to earn enough money to continue her education in Brazil. She worked in a diner in Coram and lived in an apartment with friends in West Hampton.

On the night of February 4th, 1990; she left work around 11:00 P.M.. Taking the car she borrowed from her friend and used for her commute to work, she headed from her job onto the Expressway for her trip home. The trip along the Expressway was routine for Maria. After awhile she reached the exit for the cut off for Route 111. This would take her South to Sunrise Highway and then home. Exiting, she took the road South. The time was about 11:15 P.M.. Maria noticed that traffic was non existent on the road. She noticed no cars except for her own.

All of a sudden, a large luminous oval object appeared to the front of her car at tree top level and paced her as she drove South. The object was as large as the width of the four lane highway and was very bright. Maria admitted later that the light from the object was intense and she had to squint to see the road. She also said that the heat from the object was very warm and she could feel it through the windshield of the car. It continued to pace her just slightly ahead and above her. It was totally silent lacking any doors, windows or insignia on the object. The surface of the object was smooth and she noticed there were no appendages that could be identified as engines. Again, she noticed there was no traffic on the Highway. She was alone and terrified.

This situation continued until she reached Sunrise Highway when the object suddenly rose and headed off to the South East. It was gone as suddenly as it had appeared. She continued to drive until she stopped at a Seven/Eleven Store. She asked some of the people there if they had seen the object that had chased her car. None had. She headed home and recounted the experience to her roomates.

The next day, she mentioned her story to her co-workers. They instructed her to call L.I.U.F.O.N.. That afternoon she called in a Hotline report which was tape recorded for later study. On February 11th, 1990; Martha and Bruce Richardson interviewed her at her apartment in the presence of two friends. The interview was video taped for our archives.

The Richarsons conducted a in depth interview which determined no missing time experience. There were no physical after effects from exposure to the light and heat of the object. The car Maria was driving was checked for radiation and none was noted. During the interview, one of Maria's friends recounted that he believed he may have seen the object while he was driving along Montauk Highway in Quogue. He stated that he saw a large luminous object shoot across the road heading South.

Although, Maria stated that she had no period of missing time and that she did not suffer from any nightmares or bizarre phenomenon due to her experience. The possibility of an abduction scenario was not ruled out. Bud Hopkins was consulted on this case. He related that the absence of any traffic on a major Highway such as Route 111 was typical of many abductions. How it is accomplished is a mystery. It is almost as if the victim is separated into another time segment.

Maria had to leave in March to return to Brazil since her visa was expiring. She planned to return to the United States in the near future. Her report remains listed in our files. It has been given a High Degree of Probability due to her friend's simultaneous observation. Her case may be a typical CE-I, but the possibility of an abduction has not been ruled out.

**THE FUND FOR U.F.O. RESEARCH, MARYLAND:** This prestigious research organization, headed by Dr. Bruce Maccabbe, has announced as of November that they have located eighteen additional witnesses to the 1947 Roswell U.F.O. Crash. This incident involved the U.S. Army Air Force retrieving what is purported by U.F.O. Researchers to have been an alien space craft in New Mexico in the late forties. Although the Government stated that it was a weather balloon that was recovered, U.F.O. Researchers William Moore and Stanton Friedman since the seventies have uncovered startling evidence that it was something else. Some ninety-six witnesses have given information indicating to date that an unusual object was recovered which was cloaked in secrecy almost equalling if not surpassing the famous Manhattan Project. The additional witnesses have surfaced after last year's "Unsolved Mysteries" documentary was aired. Some of these witnesses claimed to have seen the alien bodies, transported the wreckage, and know of the disposition of the recovered craft. The Fund is in the process of collecting video recorded affidavits from these witnesses in preparation of presenting them before a special Congressional Committee to look into the possibility that the U.S. Government is in possession of evidence proving the existence of extra-terrestrial visitations to our world. The Fund is looking for private donations to help in the expense of this very important program. If they are succesful, it could mean that Congress if given sufficient evidence will be able to start unlocking the doors of silence and secrecy.

\*\*\*\*\*  
**OZARK, U.F.O. CONFERENCE, ARKANSAS:** Preparations are now underway for the Third Annual Ozark U.F.O. Conference. As before, the conference will be held at the Inn of the Ozarks in Eureka Springs, Arkansa on the dates of April 5, 6, 7, 1991. Advance registrations (through March 25, 1991) will be accepted at the previous rate of \$35.00 for the entire Conference. Admission at the door will be \$40.00. The Conference sessions will begin at 1:00 P.M. on Friday, April 5th, and will conclude at noon on Sunday, April 7th. Advance registrations are now being accepted and should be made out to OZARK, U.F.O. CONFERENCE FUND and may be sent to Route 1, Box 220, Plumerville, Arkansas, 72127. Further information may be obtained by calling (501) 354-2558. All rooms at the Inn of the Ozarks will be reserved for those attending the Conference and room rates will be \$36 for a single room and \$42 for a double room. Reservations may be made by calling the Inn at (501) 253-9768 or by writing to them at P.O. Box 431, Eureka Springs, Arkansas, 72632.

Conference speakers will include George Wingfield, Norman Oliver, Forest Crawford, John Carpenter, Antonio Humeus and William Sherwood, with others still to be contacted.

\*\*\*\*\*  
**CROP CIRCLES REPORTED IN THE MIDWEST, ("THE STAR", KANSAS CITY, MO., 9/21/90):** The farm of Roger and Lynn Lowe located near Bates City, Missouri, received national attention in the first week of September when they discovered two mysterious crop circles in their sorghum field. Now area residents are reporting similar circles in three other fields. Two are reported in Kansas, with one in Missouri. Residents there gave little thought of the oddities until they heard about the Lowe's field circles.

John and Ruth McCahon of Raytown, Missouri, reported two circles in their sorghum field September 18th, 1990. They reported two circles thirty to forty feet in diameter in their field. Three circles have also appeared in a pasture southwest of Oskaloosa, Kansas, and one in a field west of Topeka. The Lowes don't accept the explanation of U.F.O.'s being the culprit, but believe the wind is to blame in creating their circles. The circles have destroyed some fifteen hundred dollars worth of sorghum for the Lowes. The vegetation was gently blown over but not crushed. Meteorologists believe that wind vortexes are to blame. Called micro-bursts or dust devils, they are transfers of atmospheric energy over a small area.

Similar circles have been reported in Canada and Japan this fall. They plus the American circles resemble the recurring crop circles reported throughout England during the eighties. Researchers there have begun to dismiss the wind vortex theory since elaborate rectangular patterns have appeared alongside the crop circles. The farmers in England have reported strange lights over their fields during the appearance of the circles. U.F.O. Researchers here and in England believe now that there may a connection to the U.F.O. Phenomenon. The reports in the Mid-West did not involve reports of strange objects or lights.

The news and entertainment industry is pushing the latest public interest in the U.F.O. phenomenon to the fullest. The popular T.V. shows "Current Affair" and "Hard Copy" are showing the latest in U.F.O. reports almost on a weekly basis. The shows are of immense popular interest and feature some amazing stories \*\*\*\*\* The latest feature dealt with a story from British Columbia of a U.F.O. Contactee who has taken dozens of pictures of visiting U.F.O.'s. When the camera crew attempted to video tape the latest visiting object it would not register on their T.V. cameras, but was photographed on regular film (interesting item, reminds us of Paul Peterson's efforts at Moriches Bay). The camera crew were all witnesses to the event. \*\*\*\*\* One only has to look at the attention the newspapers and T.V. are giving the crop circle mystery in England and around the world to realize the intense public interest in the subject now. \*\*\*\*\* Maybe it has always been there, but the news media has ignored this segment of public interest for a long time. \*\*\*\*\* A new video release of a great U.F.O. Documentary has been released this fall. It's "U.F.O.'s, It Has Begun" which was produced in the seventies with the late Rod Serling narrating. It's a great film which is thoroughly researched and presents the viewer with a capsulated history of the subject. It's obtainable from "Special Interest Video" in their latest catalogue. \*\*\*\*\* Call 1-800-522-0502 to order. \*\*\*\*\* "Aviation Weekly" in their October 1st issue featured a article on the secret new jets being tested at Edwards Air Force Base in Calif. and Nellis Air Force Base in Nevada. Reports of triangular, quiet aircraft to low frequency pulsating rumbling noise propelled aircraft were recounted based on eyewitness stories. Even CNN carried a feature report on the article. \*\*\*\*\* It seems now even the sacred domain of Phil Klass' former publishers give credence to reports of strange aircraft operating in the skies now. \*\*\*\*\* Billy Goodman the popular Nevada radio talk show host whose late night Coings blew the whistle on many secret affairs in Area 51 with the help of Bob Lazar, was booted from his position due to his stations insistence that his show was too controversial, has found a new roost. He is sounding off on the Infotainment Radio Network out of Salt Lake City Utah. Goodman, it is felt by many, may have been silenced by his station due to the attention he brought Bob Lazar and his story about Area S-4 in Nevada. \*\*\*\*\* A interesting set of books to get. \*\*\*\*\* The first is "Report On Communion" by Ed Conroy published by William Morrow and Company, 427 pages (\$19.95). It does a thorough critic of Whitley Striebers "Communion" and does a fair job of examining some of Mr. Strieber's claims. \*\*\*\*\* "The Watchers" by Ray Fowler does a interesting speculation on the Abduction Phenomenon by revisiting Betty Andreasson's abduction history. His theory is that the little gray men are here to watch over us and guide us. He offers more speculation than case histories. If you are interested it is published by Bantam Books, 416 pages (\$19.95) \*\*\*\*\* For those of you in the Sayville area, a great book store for new and used U.F.O. books and tapes is the Metamorphosis Book Store.

#### U.F.O. POTPOURI.

\*\*\*\*\* For those of you who want to subscribe to a great little newsletter on national and international U.F.O. events for the serious researcher is the "International U.F.O. News Bulletin" published by Diane Montrose. For \$20.00 per year it is a great informative journal to subscribe to. Contact Diane for information by writing to: Diane Montrose, 182 E. Chester Street, Valley Stream, N.Y., 11580 or telephone (516) 568-0772. It is sent out to some twenty foreign countries. \*\*\*\*\* By the way, Diane use to be with Island Skywatch, but left after discovering that Bill Knell was faking U.F.O. reports. Due to her efforts amongst others, he was finally exposed as the fraud he is. The lady deserves a lot of credit, since it took guts and courage to stand up to Mr. Knell and his Bully Tactics. \*\*\*\*\* Another good little newsletter to subscribe to is the "Gas Swamp Journal" published by Chris Rutkowski and his wife Myra in Manitoba, Canada. The official news letter of Ufology Research of Manitoba, it is excellent for its objectivity and thoroughness in its research. You can contact Chris at: Ufology Research of Manitoba, P.O. Box 1918, Winnipeg, Manitoba, Canada, R3C3R2. \*\*\*\*\* Another excellent newsletter is "Contactee" published by Ellen Crystal. Ellen is the determined little lady from New Jersey who has for some ten years been researching the strange events up in Pine Bush, New York. Ellen carries some good information for \$20.00 a year. Write: P.O. Box 12, New Milford, New Jersey, 07646.

## THE LONG ISLAND SCENE.

The activity continues \*\*\*\*\* The last issue contained a story of a sighting on November 17th, 1990 of a luminous oval object over Manhattan in the areas of 86th and 87th Streets between 2nd and 3rd Aves. The witness (her identity is confidential) stated it was on a North to South course heading at an altitude of several thousand feet. \*\*\*\*\* As of this issue, we have had a second witness contact us in reference to this sighting. She lives in the 86th Street area and observed an oval shaped U.F.O. in the sky on the same night at the same time of our first witness' sighting. \*\*\*\*\* LIUFON has taken a statement from the witness and we believe it to be the same object seen at the same time by two different witnesses \*\*\*\*\* Mark Landers, Kings County Chairman for LIUFON reports observing on Wednesday, December 10th, 1990 at 8:17 A.M. while on his way to work in Manhattan a boomerang type object on a Northerly course over the East River at a very high altitude (for further details see the special report). \*\*\*\*\* Reported on December 12th from West babylon. An anonymous caller called to inform us that he had a close encounter with an alien while putting his garbage out in his driveway. He reported that a grey skinned being about 5 ft. tall appeared in his driveway while a small disc shaped craft hovered up the driveway in his backyard.. The estimated size of the craft was 6 to 8 feet in diameter and had bright lights around its periphery. The figure reportedly communicated with him, but the anonymous caller refused to tell us the form of the communication for fear of ridicule.. The figure and the ship then disappeared after some ten minutes. The gentleman then rushed into his home to tell his wife of the visitation. After recounting the tale to his wife, they realized that some 25 minutes had passed instead of the ten. \*\*\*\*\* Wee think we know this gentleman. We are going over our records in an effort to identify him from previous reports he called into to us \*\*\*\*\* From all appearances he may be a life long abductee and because of it we are taking this anonymous report seriously. \*\*\*\*\* Report of a November 16th, 1990 incident involving nocturnal lights. A young housewife in Great Neck who lives in a apartment house observed a formation of very intense red lights from her kitchen window at 10 P.M. that night. She estimated them to be two blocks away at a altitude of two thousand feet and to be moving slowly across the horizon. The estimated size of the space between the lights is put at between 400 ft. to 600 ft. in length. The woman informed us that she called the Great Neck Police and the Kensington Police in an effort to obtain an explanation of what she saw. She was given the explanation by the Great Neck Police that it was a blimp and that they had received several calls on the amitter from other witnesses. The Kensington Police informed her that they had received no calls concerning the sighting. We believe the woman was given the runaround by the Great Neck Police. The reason for this is because the young woman called the F.A.A. at La Guardia and Farmingdale the next day and was told that there were no blimps in the sky that night.. We are looking into this through some of Dick Ruhl's contacts. \*\*\*\*\* It may have been something unusual. \*\*\*\*\* A report of a January 4th, 1989 encounter in the woods of North Medford with a landed object. The witness called the 20th of this month to report the incident to us. He states he was blinded by a white beam of light so intense that he could see the blood in his eyes. He also claims some three hours of missing time. \*\*\*\*\* As this case develops we will keep you posted. \*\*\*\*\* The West Islip Case involving the mother and daughter has become very intense. It is also involving other members of the family and relatives. On December 12, 1990; the daughter reports being immobilized by a grey skinned lizard type being that had bared a set of fangs at her and hissed when she accidentally awakened. \*\*\*\*\* This and other incidents have forced us to refer the family to Bud Hopkins for hypnotic regression in the month of January. \*\*\*\*\* The LeFante Case is still active with several new reports of abductions and sexual manipulations for the obtaining of sperm samples. Mr. LeFante is standing up well to the strain of his experiences as LIUFON counsels him. He is also going under regression with Bud Hopkins. \*\*\*\*\* As we close out this year our case load is over some 140 cases for the year of 1990. \*\*\*\*\* and so the activity continues and continues \*\*\*\*\*
